## LABORCARD

**9x in Wien**

Telefon\_(01) 260 53-0

Mail\_mail@labors.at

**www.labors.at**

### 24/7

\_With the Lab Card you will have access to your lab data at any time (even outside our opening hours). No matter where you are, via Internet connection you can access your lab reports from anywhere in the world.

### SECURITY

\_To access your lab reports you need a user ID and a password. The user ID is on your Lab Card, which you can request free of charge after we have created your first lab report. For security reasons, we will give you your password separately. You can change your password at any time after your login. Your lab reports are securely stored and will be encrypted for transmission. Your data is always safe and protected against unauthorized access using multiple levels.

### DIAGNOSIS-QUERY

\_On our website [www.labors.at](http://www.labors.at), you will find on the right-hand side the tab "Befundabfrage" (= Diagnosis query). Click on it, and you will enter the BIS (Diagnosis query system). To log in, enter your user ID and your password, and you will see your reports immediately. You can display not only your current report but also your previous ones and compare your data. The BIS (Diagnosis Query System) will also show you additional medical information relevant to your reports and analysis.

**Max Mustermann**

geb. am 12.12.1956

---

**Blutgruppe: 0**

**Rhesusfaktor: RH neg (ccddee)**

Auftrag: 1234567890 | Datum: 27.01.2013

---

**Benutzer.ID: 12345678**

Mit dieser Benutzer-ID und Ihrem persönlichem Kennwort können Sie Ihre Befunde jederzeit auf [www.labors.at](http://www.labors.at) abrufen.

## **FAST ASSISTANCE**

\_The Lab Card contains your name and date of birth, your blood group and your RH factor (if we have tested it). Thus, the Lab Card provides quick information with vital data in case of emergencies.

## **CONVENIENCE**

\_Using the Lab Card, you no longer have to take your lab results to different physicians, but can access them anywhere on site. Of course, you can also print the results everywhere and at any time. Also, in the BIS (Diagnosis query system) you will find helpful medical information relevant to the results and the analysis, like the meaning of the values and their acceptable ranges so that you can discuss them with your home doctor or treating physician.

## **REQUEST YOUR LAB CARD**

\_The Lab Card is free of charge, and you can simply request it on our website: [www.labors.at/laborcard](http://www.labors.at/laborcard)

## **FURTHER INFORMATION**

\_We are happy to advise you about further advantages of the Lab Card and will assist you with any question you may have. Please email us at [mail@labors.at](mailto:mail@labors.at) or call: 01 250 53-0.
