- _ Care through medical specialists
- _ Most modern analytical equipment
- _ House visits
- _ Marcoumar clinics
- _ ISO 9001 system certification
- _ ISO 14001 environmental management system

QUALITY THROUGH TECHNICAL COMPETENCE

The broad medical knowledge and comprehensive expertise of the individual medical specialists at the group practice Labors.at ensures a maximum of technical competence in laboratory diagnostics.

The constant advanced training of our qualified employees and the most modern technology guarantee the reliability of all examinations performed.

Our friendly employees will help you to fill out all necessary forms, gladly respond to your individual requests and are available for you at 9 locations in Vienna.

BROAD RANGE OF ANALYSIS

From blood samples to smears right up to the most modern genetic analyses: the group practice Labors.at offers you a broad spectrum of all laboratory services "from one source." The advantage for you is that you have only one single route and all necessary examinations can be made in one laboratory.

COMPLETE ANALYTICAL SPECTRUM

As a patient you are the focal point of all our work. The most modern analytical equipment guarantees an assessment of findings on the highest technical level.

Highly developed and secure data processing enables a password-protected personal access to your results at any time safely and from anywhere in the world via the Internet.

In addition to detailed information about all analyses, our website at www.labors.at also offers current articles and brochures pertaining to important medical topics and diseases.

FAQS

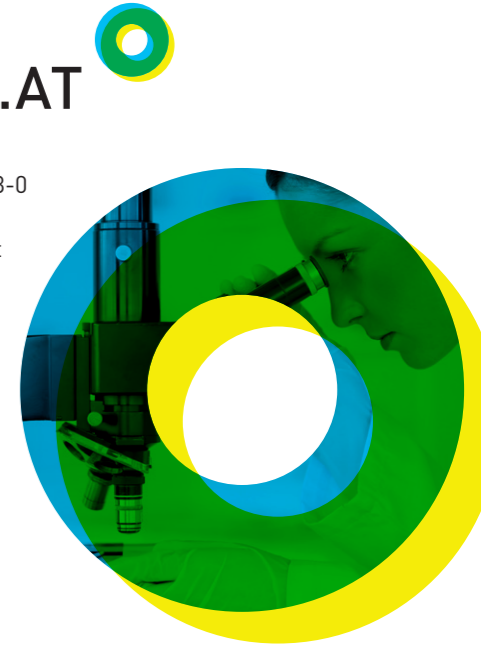

Blood withdrawal is possible from 7 am. Please arrive for blood withdrawal on an empty stomach (do not eat breakfast; otherwise some test results may lose their expressivity).

Registration is not necessary for most examinations due to the short waiting period. Please arrange an appointment for smears, glucose tolerance test, sperm analysis and Marcoumar adjustment (see www.labors.at for OAK-clinic times).

Many results are ready on the day of the examination and can be picked up, faxed or accessed via the Internet on the same day.
